DESCRIPTION

Once you've watched your favourites on LG OLED TV, every other flat screen just looks flat. Movies, shows, sports, gaming — OLED displays it all in a new light, bringing out richness in all colours and uncovering what was once hidden in crisp, clear detail. Perfect black and infinite contrast reveal shadow detail in the darkest scene, while picture and sound benefit from LG's most powerful AI-powered 4K processor and Dolby technologies. The intelligence of LG ThinQ® and the voice control of the Google Assistant* and Alexa** built-in.

*Service limited to certain languages. Some features require 3rd party service subscriptions.
 **Available via firmware update later in 2019.
