- **webOS® 6.0 & ThinQ® AI w/ Magic Remote**
- **Gaming: NVIDIA® G-SYNC® Compatible, VRR, ALLM**

DESCRIPTION

Light up your world with SELF-LIT PIXELS

LG OLED TV is a joy to behold. Self-lit pixels allow truly spectacular picture quality and a whole host of design possibilities, while the latest cutting-edge technologies help deliver unprecedented levels of wonder. This is everything you love about TV — elevated in every way.

KEY FEATURES

Self-lighting OLED

When it comes to picture quality, OLED beats LED hands down. That's because OLED has millions of self-lit pixels capable of producing perfect black and accurate colour. The result is a viewing experience like no other.

α9 Gen 4 AI Processor 4K

At the core of every LG 4K OLED TV is the α9 Gen4 AI Processor 4K, a groundbreaking chip that uses deep-learning algorithms to analyze and optimize content. Every adjustment to picture and sound is automatic, so everything you watch is spectacular.

Dolby Vision™ IQ and Dolby Atmos®

Dolby Vision™ IQ intelligently adjusts picture settings based on content genre and ambient surroundings, while Dolby Atmos® delivers multi-dimensional surround sound — a powerful combination that produces breathtakingly cinematic results*.

*Dolby Vision is a trademark of Dolby Laboratories. Dolby, Dolby Atmos and the double-D symbol are registered trademarks of Dolby Laboratories.

webOS® 6.0 & ThinQ® AI w/ Magic Remote

The newly designed home screen shows personalized content suggestions, gives you easier access to favourites, and lets you control connected devices all in one place. The redesigned Magic Remote has an ergonomic design that's easy to hold, and its point and scroll system allows faster searching. Built-in AI provides easy access to services, while hotkeys for major content providers give you shortcuts to all your favourites. In addition to all that you now have Magic Tap*, a clever new trick that connects your phone to your TV.

*Requires compatible mobile device with NFC.

Gaming

LG OLED TV puts you ahead of the game with swift response, the latest gaming features, and a 120Hz display for a smoother playing experience. This is the ultimate TV for your gaming setup.
