- TruMotion 120 (Native 60Hz)
- Compatible with Google Home, Amazon Alexa, Apple Airplay 2/ Homekit

DESCRIPTION

Empower entertainment with LG UHD TV

LG's UHD TV maximizes your entertainment and gaming. From 43" to 75", real 4K displays push your picture performance. LG UHD TV's processor enhances colour, contrast, clarity and detail.

KEY FEATURES

Real 4K Display

It's a 4K picture that defines quality. Over 8.3 million active pixels of 4K deliver 4 times the resolution of full HD.

Active HDR

Automatically elevate the beauty of your favourite scenes. Active HDR supports a wide range of formats for scene-by-scene picture adjustment, including HDR10 and HLG.

Netflix, Apple TV+, Disney+, Prime Video, LG Channels

There's no stopping your entertainment. LG's smart webOS® features the latest streaming apps like Disney+, Prime Video and the Apple TV app, and favourites like Netflix and LG Channels. It's simple to find top shows, up-and-comers and get personalized content recommendations.

TruMotion 120 (Native 60Hz)

Never miss a moment. Refresh Rate 60Hz reduces blurs and sharpens details, giving fast-action movie sequences and lightning-fast sports plays a smoother look from frame to frame.

SPECIFICATIONS

PICTURE (PANEL)
